Distribution und Produktion

---

Elektrotechnische Ausrüstungen und Komponenten für Industrie, Bahnen, Bahninfrastruktur und Schifffahrt

## **Components and Spare parts for railway applications**

Infrastructure and rolling stock

### Low-voltage electrical equipment

- Control and signalling devices (Pushbutton actuators, indicator lights etc.)
- Contactors
- Auxiliary contactors
- Relays
- Switches
- Fuses and fuse links
- Modules
- Accessories and spare parts for switches, contactors etc.

### Overhead contact line systems

- Clamping materials
- Take-ups, connectors, protective sleeves
- Cantilevers and supporting components
- Isolators
- Clamps
- Retensioning devices
- Section isolators
- Contacts for overhead lines
- Circuit breakers and electric drives
- Earthing and short-circuiting equipment
- Contact wires, cables, wire ropes
- Tools and devices (such as ground rods)

### Rail accessories

- Crossing frogs
- Point machines
- Point heating systems
- Components for power rail systems
- Contacts for bar rails
- Rail contacts
- Cover plates
- Assembly tools
- Drilling devices for track rails and railway sleepers

### Lightning protection systems

- for electronic interlocking
- for traffic lights and signals
- for level crossing systems

### Various components for railway applications

- Train antennas
- Lighting
- Insulators
- Spark chambers
- Measuring coils (Induction coils etc.)

### Repair possibilities

- On request
